## PROJECTS

### MLBB Draft Assistant Tool: Next.js, Puppeteer, JavaScript

2025

Web application designed to assist players during the draft phase of *Mobile Legends: Bang Bang*.  
Analyzes ally and enemy compositions to suggest optimal hero picks based on counters and synergies.  
Features a custom data scraper built with Puppeteer and a client-side algorithm for real-time suggestions.

### Personal Web Portfolio Tool: Next.js

2024

Responsive personal website built with Next.js to showcase projects, skills, and contact info.  
Clean design and easily extensible structure.

I authorize the processing of my personal data pursuant to Legislative Decree No. 196 of June 30, 2003, and Article 13 of EU Regulation 2016/679 (GDPR).
